SUPPLEMENT

KRBE LICO, Inc. ("KIKT"), licensee of Station KIKT(FM), Greenville, Texas, by its counsel, hereby seeks to Supplement its proposal for a first local service to Cooper, Texas by amending its reference point to a new site which it intends to use. In the Petition for Rule Making, KIKT specified a reference point which it did not necessarily intend to use. Rather, the site was offered because it represented the closest point to Cooper, Texas, the proposed new community of license, that the spacing rules would allow. KIKT now desires to specify a new transmitter site location for its proposed Cooper station which it intends to use. The new coordinate are 33° 16' 22" N and 95° 49' 01" W. A channel study at these coordinates, and a 70 dBu coverage area map are also provided.

The channel study shows a short spacing to a recently filed application for Station KICM(FM), Krum, Texas (BMPH-20000725AAZ). This application was filed contingent on the instant Cooper rule making proposal being granted as well as the outstanding permit for Station KIKT at Greenville becoming licensed. KIKT has separately filed an objection to the grant of the

KICM application due to its violation of the contingent application rule, Section 73.3517. By filing prematurely, Station KICM has eliminated any opportunity for KIKT to locate to the west and continue to provide some service to Greenville as it intended to do to meet concerns raised by the City of Greenville in its opposition pleading. In addition, there is no non short spaced site area to the east toward Cooper. The purpose behind forbidding contingent applications is for the Commission to be as fair as possible in allowing applicants to take advantage of spectrum space when it becomes available so everyone has the same opportunity to file.

KIKT does not desire to deprive Station KICM of an improvement for its facility. KIKT's purpose is to ensure that when it moves to Cooper, that it can have some flexibility in locating an area that is not short spaced. Accordingly, KIKT requests that it be permitted to supplement its proposal by specifying a new reference point.

Respectfully submitted,

KRBE LICO, INC.
